

Thomas Carney

SUMMARY

Creative, detail-oriented, challenge-driven Software Engineer with diverse experience in business, defense, and technical industries. Proven track record of creating and implementing successful client-side and server-side web applications. I am looking to bring my skills to an agile software development team.

- Certified in computer operating systems, PC hardware, networking, network security, remote access, virtualization, storage, mobile devices, malware detection/prevention, and troubleshooting.
- Many years of hands-on technical experience and troubleshooting
- Excited about relocation opportunities.

WORK EXPERIENCE

Software Engineer at 100devs | Remote

May 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices.
- Built semantically structured full-stack web applications.
- Applied agile methodologies like Scrum for project management.
- Integrated Database into applications.
- Database ERD design and implementation.

Operations Manager at Smart Services Group LLC | Alexandria, VA

July 2019 — January 2022

- Successfully utilized SEO web practices, resulting in a consistent presence in the top 5 search engine results in Washington, DC.
- Ensured quality service, project management, hiring, training, contracting, scheduling, inventory, records, sales, EPA conformity, and the overall flow of daily operations.
- Performed hands-on system installations, repairs, and troubleshooting.

Sonar Technician Surface at United States Navy | Norfolk, VA

July 2015 — July 2019

- Completed four years in the USN as an enlisted sailor with a primary job as a Surface Sonar Technician (STG).
- Joined as an E-1 and separated as an E-5 through on-time promotion.
- Awarded the Navy & Marine Corps Achievement Medal and Good Conduct Medal
- Performed maintenance on computers, electrical distribution, SONAR systems, and cooling skids.
- Years of experience operating AN/SQQ-89a(v)15 ACB13/15 SONAR Suite aboard USS Gravelly and in lab settings.
- Successfully orchestrated weekly divisional training for maintenance, safety, and security
